Welcome

Welcome to my home! We are so thrilled to have you stay in our cabin! As a family, we promote happy and healthy living and we wish you a happy and healthy stay in the cabin as well.

This place is so special to us, and I want you to enjoy it as much as we do. Our favorite thing to do is to just relax and enjoy the quiet and peaceful family time together. There's also plenty to do in the surrounding area, including exploring the Great Smoky Mountain National Park, Pigeon Forge, Gatlinburg, and other fantastic attractions such as Dollywood, Space Needle, restaurants, and local shops.

This book contains all of the basic information about my home, as well as some tips about things to do nearby. You should find everything you need, but if you have any questions that aren't covered in here, please reach out anytime during your stay, and we will get you taken care of.

I hope you enjoy yourself and visit again in the future!

Sincerely,

Barry & Sunny

What do I do if I see a bear?

If you see a bear:

- **Remain watchful.**
- **Do not approach it**
- **Do not allow the bear to approach you.**
- **If the bear is at a distance, feeding or walking by, and notices you but continues its natural behavior, no action is needed on your part. Proceed while continuing to observe the bear.**
- **If your presence causes the bear to change its behavior (stops feeding, changes its travel direction, watches you, etc.) you are too close.**
- **Being too close may promote aggressive behavior from the bear such as running toward you, making loud noises, or swatting the ground. The bear is demanding more space. Don't run, but slowly back away, watching the bear. Increase the distance between you and the bear. The bear will probably do the same.**

If a bear persistently follows or approaches you, without vocalizing, or paw swatting:

- **Change your direction.**
- **If the bear continues to follow you, stand your ground.**
- **If the bear gets closer, talk loudly or shout at it.**
- **Act aggressively to intimidate the bear.**
- **Act together as a group if you have companions. Make yourselves look as large as possible (for example, move to higher ground).**
- **Throw non-food objects such as rocks at the bear.**
- **Use a deterrent such as a stout stick.**
- **If you are carrying bear spray, begin to discharge it when the bear comes within 20 yards of you.**
- **Don't run and don't turn away from the bear.**
- **Don't leave food for the bear; this encourages further problems.**
- **Don't discharge a firearm; this can cause a safety hazard for other visitors.**

If the bear's behavior indicates that it is after your food and you are physically attacked:

- **Separate yourself from the food.**
- **Slowly back away.**

If the bear shows no interest in your food and you are physically attacked, the bear may consider you as prey:

- **Fight back aggressively with any available object!**
- **Do not play dead!**

Help protect others, report all bear incidents to a park ranger immediately. Above all, keep your distance from bears!
